New progress towards ending the force majeure situation

Dear Customer,

Thanks to the tireless efforts of all external and internal supporters, we can announce today that production is now almost completely restored.

This means that the vast majority of our systems and equipment have returned to their pre-flood status. In addition, we have up to doubled our personnel capacity in key areas to reduce the backlog caused by the flood damage. We are working on this at full speed 24/7.

We would like to thank you for your understanding during the past 5 weeks and look forward to further successful cooperation.

Kind regards

Dipl.-Ing. Christian Mertens
